ABOUT ME

A passionate and self-motivated BCA graduate currently undergoing intensive training in Python Full Stack Development and Data Analytics. Eager to apply newly acquired technical skills in a dynamic IT environment and contribute to innovative projects.

EDUCATION

MAR AUGUSTINOSE COLLEGE RAMAPURAM | 2022-2025

Bachelor of Computer Application

The Bachelor of Computer Applications (BCA) is a 3-year undergraduate degree focused on computer science and application development.

Python Full Stack Developer & Data Analytics

Computer park- Ongoing

Key Topics: Python, Flask/Django, HTML, CSS, JavaScript, MySQL, MongoDB, REST APIs, Git/GitHub

MAIN PROJECT

CAR WASH MANAGEMENT SYSTEM

Oct 2024 - Jan 2025

A Car Wash Management System is a software application designed to help car wash businesses manage their daily activities in an organized and efficient way. It replaces traditional, manual methods with a digital platform that allows customers to book services online and helps staff keep track of appointments, payments, and customer details.

GYM MANAGEMENT SYSTEM

Jan 2024 - Apr 2025

Developed a Gym Management System focused on managing membership packages such as monthly and yearly plans. The system allowed easy registration of members, package assignment, and payment tracking through a simple and intuitive interface.

SKILLS

- Languages: Python, JavaScript, HTML, CSS
- Web Development: Django, Bootstrap
- Database: MySQL, SQLite
- Data Analytics Tools: NumPy, Power BI, Excel
- Version Control: Git, GitHub

CERTIFICATIONS

3-month internship
